of the
**CANADIAN
MEDICAL ASSOCIATION**
CANCER

Cancer is an old disease. It is de
scribed in the writings of the an
cients which have come down to us.
Only in comparatively recent times
has it been understood that the var
ious tissues of the body are made up
of the one type of cell, all coming
from one parent cell. Similarly, can
cers arise from each type of cell and
remain of that type. If the cancer be
gins in the stomach and spreads to
the liver, the growth in the liver will
resemble stomach cells not liver cells.
Under normal conditions, the cells
of the body divide, grow, mature and
die. At present, we do not know what
controls this process. Apparently
when this control is lost or disorgan
ized, growth occurs which, in some cases,
is cancerous or malignant.

There are many theories concern
ing the cause of cancer, which is an
other way of saying that there is no
satisfactory or generally accepted
theory. The disease is not hereditary.
In most cases, it occurs after some
sort of chronic irritation. This irrita
tion may be mechanical and be pro
duced by broken teeth, teeth which
do not meet properly and have sharp
edges, and by poorly fitting plates.
The irritation may be due to a chronic
inflammation, such as infected teeth
or sinuses, or of the lining of the uter
us. Habitual abuse of the stomach
may produce a chronic irritation of
that organ. Constipation is properly
a factor in cancer of the rectum.

It has not been shown that any par
ticular type of diet has any influence
on cancer. Our present knowledge per
mits us to say that its prevention lies
in the prevention or removal of types
of irritation above referred to. By a
regular health examination, these
sources of infection may be found and
the need for their correction pointed
out, which is one excellent reason
why everyone should be examined
regularly by his family physician.

THERE is nothing that has ever
taken Aspirin's place as an antidote
for pain. It is safe, or physicians
wouldn't use it, and endorse its use
by others. Sure, or several million
users would have turned to something
else. But get the real Aspirin (at any
drugstore) with Bayer on the box,
and the word genuine printed in red!

Aspirin is a trade mark registered in Canada

MAIN STREET

At present, our only method of cure
is by removal, or destruction of the
growth, once it has developed. If done
early, this offers a good chance for
cure. It is early treatment which alone
is of value.

Questions concerning health address
ed to the Canadian Medical Associa
tion, 184 College Street, Toronto,
will be answered by letter. Questions
as to diagnosis and treatment will
not be answered.

VISITING DAY AT CRIPPLED

CHILDREN'S HOSPITAL

Visitors are always welcome at the
Junior Red Cross Hospital in Edmon
ton during the official visiting hours
in the afternoon, that they may see
for themselves what manner of mir
acles are being wrought on the soft
baby bodies of little ones who are un
fortunately handicapped from birth.
The writer had the pleasure of es
corting a party of country friends
round the wards lately, and it was
worthy of note that at every step of
the way, the sympathies and admira
tion of the visitors increased as they
saw and heard and spoke to the chil
dren for whom they had been making
financial appeals in their home-towns.

A smiling nurse welcomed the party
and in a trice everyone was robed
in white—the special gowns being used
as a precaution for safety and
health. Turning to the little nursery
wards at the entrance, the visitors
saw little ones in each of the four cots.
One looked quite a new baby and was
soundly sleeping with the happy air
of innocent infancy. Not so the ex
citable who were all on wires appar
ent, full of fuss and ready for the lit
tles of their friends. Small feet in
casts of plaster, little faces in tar
mask, limbs suspended from specul
supports, crutches under tiny should
ers, hands and fingers being gently
massaged, children at study, others
at play, nurses here and there and
everywhere, such were the pictures of
hospital life, seen on a visiting after
noon.

Special interest was shown by the
country friends as they saw in one
cot a little darkey lad with wide smil
ing mouth big rolling eyes, while in
the cot opposite lay a small Japanese
lady of three years old gazing dream
ily through almond eyes.

Children whose accent told of cen
tral Europe, true born Canadians of
the fourth generation, little fair hair
ed Old Country youngsters, even a
daughter of the Red men of the plains
—all together under the banner of
Red Cross, whose benediction of
health and happiness falls on all, re
gardless of race or colour. Endowed
cots here and there told their own
story, one small "Tiny Tim" cot ex
pressing the sentiment of the Visitors
"God Bless Everyone"

By introducing a small quantity of
a specially prepared silver compound,
a German chemist is reported to have
developed a method for purifying
large amounts of water at a relatively
low cost. He simply injects the
compound into the water, one and
sufficient to disinfect about 2,500,
000,000 gallons of water, it is said.
Scientists who have investigated, de
clare that the effects also are lasting.

In the sky and on the highways modern motors, developing greater
power and operating at higher speeds, demand better lubrication.
Marvelube was developed to meet this demand. It is a better
motor oil because it is made by better methods from a better
crude petroleum.

Produced by the Special Marvelube distillation process, it is
free from injurious sulphur and costly carbon. It has remarkable
body, and because it is manufactured under the constant super
vision of Canada's most expert refining technicians you are sure
of unvarying quality and unending satisfaction.

Aircraft operators, the most exacting buyers of oil, prefer
Marvelube because it has been proved in actual service that it
gives longer intervals between engine overhauls.

Marvelube insures smoother performance, longer engine life and
lower operating costs for any car, old or new. There is a grade of
Marvelube refined to meet the exact requirements of your car.
Consult the Marvelube recommendation chart at good dealers
or at Imperial Oil Service Stations.

ALBERTA

NANCY CARROLL IN LATEST FOX FILM

Those enviable qualities which made Nancy Carroll a favorite on the stage inspired Charles Klein Fox director to cast her in the chief role of "The Sin Sister." The character is that of Pearl a vaudeville star. Pearl is one of those girls with well-balanced senses of comedy and drama and above all she is a delightful dancer. When she dances a gang of miners and sourdoughs throw away their hats and spend their last cent wine-bibbing in her honor.

Nancy Carroll fits the part exactly. It was in musical comedy that she won her greatest renown; in such plays as "Chicago" she demonstrated her right to be called an actress. "The Sin Sister" has been announced for showing at the Theatre on Monday and Tuesday next.

ALBERTA'S OIL INDUSTRY

From very small beginnings the Turner Valley oil field is now producing light crude and naphtha at the rate of \$3,000,000 a year. The production figures for March set a new high record for the field of 49,988 barrels of naphtha and 7,215 barrels of crude oil. Barring accidents, it is certain that the April figures will show another substantial increase. Total imports of petroleum into Canada during 1928 were valued at \$60,946,320 which means that the Turner Valley is as yet making only a small contribution to the dominion's total demand. But the rapid exploitation of this extraordinary gas field, and the satisfaction results now being attained at Skiff in the south and at Wainwright in the north make it certain that before many years are past, Alberta will be on the way to making the country independent of outside sources for its oil supply—Winnipeg Free Press

GOVT NAMES UNIVERSITY HOSPITAL BOARD

The University Hospital in Edmonton will in future be under the direction of a board recently appointed by the Provincial Government. The personnel of the governing body includes Dr. R. C. Wallace, President of the University of Alberta, Dr. A. C. Rankin, dean of the University Medical School, Dr. M. R. Bow, Deputy Minister of Health, W. B. Milne, Supervisor of Municipal Hospitals, H. H. Cooper, wholesale merchant and John Gillespie, grain broker.

BIG INCREASE IN HOMESTEAD ENTRIES

Unprecedented demand for homestead lands in northern Alberta is indicated by the records at the Dominion Lands Agencies at Peace River and Grande Prairie for the fiscal year ending March 31, 1929. At the Peace River office a total of 3,024 entries for 2,869 homesteads and 155 soldier grants were made during the above period as compared with 854 homesteads and 155 soldier grants.

TEN CAUSES FOR

"SPOILED" CHILDREN

Parents who are spoiling their children will do well to stop and consider the underlying causes of the spoiling and the results of it, as analyzed by Dr. George K. Pratt in Hygiene:

1. Most selfish, disagreeable, conceited or unreliable adults were once spoiled children.

2. Remember that what your child is in temperament, up to ten and twelve years of age, usually indicates what he will continue to be all the rest of his life. Temperaments are moulded, not born. You, as his parent can mould him during these flexible years into almost anything you desire.

3. A spoiled child generally means he has selfish neurotic or thoughtless parents.

4. Begin your antispiling methods early. A child can be as thoroughly spoiled at two months as he can at four years.

5. Don't always do for your child those things he should learn to do for himself.

6. To "give in" habitually to your child is not an evidence to real mother love. More likely it is proof that you prize your own immediate comfort above the child's welfare.

7. Don't "show off" your child before company. Even tiny babies soon learn by this to demand excessive attention.

8. Don't determine to give your child all the luxuries and advantages you may have lacked in your own childhood. Make him earn some of them.

9. Give him some responsibility each day and insist that he carry it out. This encourages self-reliance and fosters pride of achievement.

10. All praise and no blame makes Jack a conceited boy.

ROY D. KERBY, ELECTED PRESIDENT, DURANT MOTORS OF CANADA, LIMITED

In recognition of the progress that has been made by Durant Motors of Canada, Limited during the past three years and the prestige which this company has gained during that time, under his leadership, Mr. Roy D. Kerby was elected President of the Canadian Company at a meeting of the directors following the annual meeting of shareholders.

This is evidence of the esteem in which Mr. Kerby is held by the new group which has taken over the active management of Durant Motors, Inc. in the United States and which includes Fred W. Leland, President, A. I. Phil, R. A. Veil, John A. Nichols Jr.

While it is well-known that Mr. Kerby and his executives in the Canadian Organization have won the confidence of the Canadian public through the policies they have established, he gives the credit for the company's success to the loyalty of the dealer organization that has made from coast to coast and the factory staff responsible for the building of "a good car."

DISTRIBUTE NITRO-CULTURE FOR LEGUME SEEDS.

As in previous years a supply of

nitro culture for the inoculation of legume crops is being prepared for distribution to farmers in the province by the Department of Bacteriology at the Vermilion School of Agriculture. The various cultures prepared are found to be of great value in the growth of the common red clover, crimson clover, white clover, sweet clover, alfalfa, Egyptian clover, alfalfa, vetch as peas and beans. Directions for applying the culture to these various seeds may be secured from W. J. Elliott, principal of the school.

GOVT. BACKS DAIRY

POOL'S NEW BLOCK

EDMONTON.—Arrangements are now under way between the provincial government and the Alberta Dairy pool for financing, through the Bank of Toronto, the new creamery and warehouse building that the pool is erecting in the city. The government will guarantee the pool's borrowings for the purpose to the extent of 85 per cent, taking security on the building and its equipment. This action will be the first of the kind under the co-operative marketing association guarantee act passed at the recent session of the legislature.

The new pool building, which is now nearing completion, will cost about \$75,000 and the provincial guarantee is expected not to exceed \$55,000. It is the expectation of the pool that if its business develops on the basis of its present records and prospects it will be able to retire its borrowings on the cost of the building in five years' time.

SUNSHINE TRAIL

TO BE REPAIRED

LETHBRIDGE.—Considerable work on the international Sunshine Trail will be done this year on both the Alberta and Montana sections. O. S. Warden, of Great Falls, chairman of the Montana state highway commission has announced that there will be road gangs working in sections of the trail all the way from Shelby to Dillon in southwestern Montana. Gravel surfacing will be placed on eleven miles north of Vaughn, where the road branches north after leaving Great Falls. This section was graded last year.

There's power in the household guarded
by Castoria. Powerful sleep for Mother. For a
few drops of pure Castoria, will give
any restless infant. Or put the little one
back to sleep when there's an upset due
to the night.

Parents, don't try to do without good
old Castoria! It isn't fair to the baby,
and it makes things hard for you. You
can't give baby medicine meant for
grown-ups—or shouldn't! Castoria is
the solution. It is always safe. It al-
ways does the work. And although it
acts as swiftly as an opiate or a nar-
cotic, it contains neither. Castoria is
purely vegetable. Give it whenever
there's constipation, colic, diarrhea.

No less than five million modern
mothers have come to depend on Cas-
toria, for twenty-five million bottles
were bought last year! Get yours to-
day, don't wait for some night when it's
needed, and the drugstore is closed!

WAINWRIGHT ALBERTA APRIL 24th, 1929

Judge not thy friend until thou
standest in his place
RABBI HILLET

THE WHITE-WAY

LIGHTING SCHEME
It is to be deeply regretted that
the Council of its last meeting saw fit
to shelve the scheme for the "White-
way" lighting of our Main street, for
if there is any one thing more than
another which better advertises any
town; which proclaims its existence
to the travelling world; which points
out the civic pride in the town; the
stronger within our gates, or which
does more to enhance the place as a
trading center for the visitors from
the smaller towns and villages, it is
surely a brilliantly lighted shopping
area.

Although, as the matter now stands
this project is to be brought up again
when the estimates for the Council's
present year are under consideration,
it will at least mean time lost in the
completion of the installation; for
every Councilor except one expressed
himself in favor of the proposition
as a desirable one for the town and
the citizens and it would seem to be a
foregone conclusion that the work will
be undertaken at a later date.

There are, no doubt, other projects
just as important as the lighting
scheme, and these will probably be
brought before the Council and citi-
zens in due season, but in the mean-
time of giving the Town the best boost
possible for the small sum involved in
the "white-way" lighting project, our
Council should lose no time in carry-
ing such a proposition to its conclu-
sion.

Oil companies and other financial
concerns are coming into the district
prepared to spend money to the ex-
tent of well over a million dollars, and
the duly elected representatives of the
citizens should see to it that the
merchants' trading area at least is
made as attractive as to induce them
to "do their shopping with us" to the
fullest possible extent.

The fact of a well-lighted and prop-
erly-kept Main street is without any
doubt one of the finest arguments for
inducing other merchants to locate
here, as well as giving all an added
pride in their own home town, and
the installation proposed is one which
will place Wainwright on a par with
other towns of its size with regard
to the manner of its light, bright and
cherry welcome to the trading portion
of the town.

ENFORCING THE
BUILDING BYLAWS

After very many years from the
period of its passing, the building by-
law of the Town is to be put into
force and lived up to. To make this
workable at this later date, it has
been amended, and as amended ap-
pears in this issue of The Star.

It is most certainly to the great
credit of our Council that they are
bringing Wainwright into line with
other progressive towns and cities in
the matter of saying just what class
of buildings shall be erected, and also
seeing to it that the safety factor
with regard to the fire risk involved
shall be rigidly adhered to.

Under the new scheme, it will be
necessary before the erection of ANY
building to the value of \$500.00 or
over (or in the matter of alterations,
additions, or repairs to the same a-
mount) that a building permit be se-
cured from the Town for the work to
be undertaken. This is surely most
desirable, and the cost of the permit
is almost negligible.

The old idea, under which any old
building, of any old size, and any
old type, could be placed in any old
way, has detracted in very many in-
stances from a pleasing appearance of
some of our streets, and indeed, has
possibly many times considerably
lowered the value of adjoining prop-
erty by the unfavorable comparison
which it evoked, or by the aliphad
appearance which this style and class
of building gives to any well-meaning
community.

The visiting of the provincial town
planning expert to Wainwright which
is dated for Friday next, will prob-
ably give both the Council and the citi-
zens generally some pointers in re-
gard to a "town beautiful", and a
feather in the cap of the town fathers

has certainly been earned in their
first move in this direction by their
decision to amend and enforce the
building bylaws, so as to have all
henceforth conform to established
laws and customs in the matter of the
erection of new buildings or the re-
pair of or addition to old ones.

TEACHERS'
PENSIONS

Notwithstanding that the Observer
has more than a little sympathy with
school teachers and their vari-
ous problems and has expressed that
sympathy in practical ways at many
times, we are compelled to withhold
approval at present of the pension
scheme which was recently advocat-
ed in the legislature and which is be-
ing pressed for very strongly by the
organizations connected with the pro-
fession. To our mind, the teachers
have not established a clear case that
they are entitled to a pension out of
public funds any more than other
classes whose public services are pos-
sibly quite as important in their way
as those of the teachers. Until a gen-
eral scheme of old age pensions is ad-

opted it does not seem reasonable to
single out one class of people for pre-
ference.

Under present conditions teachers
usually commence active work in the
profession about their twentieth year
Ninety-nine out of every hundred of
them are boys and girls whose high
school education and normal training
have been received partly at the ex-
pense of the public and partly at the
expense of their parents. Very very
few of them have any call on their
savings save for their living expen-
ses and the gratification of their own
desires. The minimum salary paid now
edwards to these beginners is around
\$1000 for the teaching year. This is
a good salary for any boy or girl—in
many cases, considerably more than
their knowledge at their service just-
ifies. Other boys and girls in other
lines of work are expected, nay, com-
pelled to arrange for their own pen-
sions, if any. If they don't arrange

for them themselves they are out of
luck for there is no indication that
anyone else is going to make provi-
sion for them. Teachers have exactly
the same claim for pensions as any
one else; no more, no less.

The Observer is aware of course,
that under the proposed scheme the
teachers provide a certain proportion
of the pension fund from their salar-
ies. We are also fully aware that sym-
patetic consideration should be ac-
corded those who have made the pro-
vision on their life work. But admitting
these points the Observer is still un-
convinced that the establishment of
a teachers' pension fund is necessary
desirable or sound in principle un-
less and until a general pension
scheme is approved by the legislature.
True enough we have now what might
be aptly termed a "partial pension"
in Alberta but that is scarcely what
teachers have in mind.

It must be borne in mind that the
most of the people who would have to
find the money to provide for these
pensions do not receive anything like
the same money year by year, with
nothing regularly as the teacher—

PUBLIC NOTICE

Tenders for School Building

SEALED TENDERS will be received
by the Board of Trustees of the
Autumn Leaf S.D. No. 2138, at the
office of the Secretary-Treasurer, up
to NOON, of Thursday, April 25th,
1929, for the erection of a one-room
Frame School building after plan No.
502A.

Plans and specifications may be ob-
tained from the Secretary-Treasurer
upon payment of a deposit of \$5.00.
Plans will be returned within Twenty-
four (24) hours, and deposit will then
be refunded.

A marked cheque for Five per cent
(5%) of Tender should be enclosed
with each Tender as a guarantee that
same is bona fide.

The lowest or any Tender will not
necessarily be accepted.

G. H. KENT
Sec.-Treas

Post Office—Wainwright.
Location of proposed school—Seven
teen (17) miles north of Wainwright.

Public Notice

Town of Wainwright, Bylaw No. 58
SETTING FORTH BUILDING RESTRICTIONS AND PERMITS

THE MAYOR AND COUNCIL of
the Town of Wainwright enact as fol-
lows:—

1. The Town of Wainwright shall
and is hereby authorized and em-
powered to appoint a Building Inspect-
or or who shall be charged with the en-
forcement of the provisions of this
By-law, the survey and inspection of
buildings, and the protection of the
same against fire and accident.

2. It shall be the duty of any per-
son intending to erect a building or
to make any material alterations or
repairs to any building already con-
structed in the Town of Wainwright,
to deposit with the Secretary-Treasur-
er of the said Town before commencing
the excavation for or the erection
of the said building or such material
alterations or repairs, such plans and
specifications thereof as may be re-
quired by the Building Inspector.

3. In case any material deviation
is made during the progress of such
building from the original plan or
specifications thereof so filed as afore-
said, it shall be the duty of the owner
or person in charge to notify the In-
spector of such change or deviation
with such particulars thereof as may
be required by the said Inspector.

4. No person shall commence the
erection of any building or the material
repair thereof or alteration of any
old building in the said Town until he
shall have submitted the plans there-
of and the specifications of said build-
ing, alteration or repair as aforesaid
and shall have obtained a permit in
writing from the said Inspector there-
for who may on reasonable grounds
withhold said permit.

5. No person shall erect or con-
structed any building on any Lot or
Lots in the following: Blocks within
the said Town namely: Blocks 5, 6, 7
and 8 according to Plan 6445 V. of
the Townsite of Wainwright or place
or caused to be placed any building
upon any Lot or Lots in said blocks
unless and until a permit is first ob-
tained as herebefore provided; and
unless the said building shall be:—

(a) Frame structure the exterior
walls of which are veneered with
brick or stone work or lathed,
plastered and rough casted or
finished in stucco.

(b) Frame structure of which the
front wall or wall facing the
street is veneered with brick and
the remaining walls covered with
galvanized iron, corrugated or
otherwise, or with metallic siding
fastened to cleats so as to leave
an air space between the iron and
the wood forming the wall.

(c) The building is constructed of
such other material as may be
approved of by the Building In-
spector.

6. No building erected previously

to the passing of this By-law in any
of the aforesaid Blocks 5, 6, 7, 8, shall
be extended or built-upon or added to
in manner provided in and conform to
the requirements of the last preceding
section of this By-law.

7. It shall be unlawful to repair any
wooden building already erected in
any of the aforesaid Blocks when
damaged by fire, decay or storm to
the extent of 40% of its value, of
which damage the Inspector shall be
sole judge.

8. Any person committing a
breach of any of the provisions of this
By-law shall be guilty of an offence
and be liable on summary conviction
thereof before a Magistrate or Justice
of the Peace to a fine not exceeding
the sum of \$50.00, exclusive of Costs
for each offence, and in default
of payment of such fine and costs
imprisonment for a term not exceed-
ing thirty days.

EASE OF BUYING

FOR INSTANCE, in this city your first
payment, with your present car included
may be as low as \$382, and your monthly
payments \$62.79

Your present car will probably cover the
entire first payment. The H.E.C. Purchase
Plan offers the lowest terms available on
the balance.

ESSEX challenges the per-
formance, the style, the
luxurious roomy comfort of
any car at any price, on the
basis that no other gives you
back so much for every dollar
you put in.

That is why the big buying
swing is to Essex. That is why
motorists by the thousands are
switching from past favorites,

and trading in their old cars
for the big values Essex the
Challenger gives. Essex chal-
lenges:

IN SPEED—challenging
anything the road offers up to
70 miles an hour. IN FAST
GETAWAY—any car regard-
less of size or price. IN RE-
LIABILITY—60 miles an
hour for hour after hour.

Essex offers a completeness of
fine car equipment formerly
identified only with costly
cars, and available, when at
all, only as "extras," at extra
cost on cars of Essex price.

Check these items when you
buy—they represent easily
above \$100 additional value
in Essex.

Wide Choice of Colors at No Extra Cost.

The variety is so great you have almost individual distinction

The New McLAUGHLIN- BUICK is the New Style

THE unprecedented popularity of the 1929 McLaughlin-Buick unquestionably establishes it as the new order of motor-car style.

The new Masterpiece Bodies by Fisher are revolutionary. It is true. Revolutionary in the majestic beauty of their appearance. Revolutionary in the richness of their contours and colours. Revolutionary in the spaciousness and sheer luxury of their interiors.

Revolutionary, in fact, in ALL the characteristics which make twice as many people choose McLaughlin-Buick as any other car at or above its price.

When Better Automobiles Are Built — McLaughlin-Buick Will Build Them

Where the Natural Resources

Question Stands Now

By John D. HUNT
Clerk of the Executive Council,
Alberta Legislature

After years of agitation and negotiation an agreement was signed in January, 1926, for the transfer to the Province of her natural resources. This agreement was made subject to the approval of the Parliament of Canada and of the Legislature of the Province, and was to take effect on the first day of the month following that of its confirmation by an Imperial Act.

The most important provisions of the agreement were:

1. The payment of an annual subsidy of \$562,500.00 to the Province for three years.
2. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

3. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

4. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

5. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

6. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

7. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

8. The transfer of Crown Lands to the Province, except as to reservations specified herein, of the interests of the Crown in all crown lands, mines, minerals and royalties, subject to existing trusts, contracts to purchase leases and lawful claims of grantees of land by way of subsidy for construction of railways or otherwise and subject to the land grant of the Hudson's Bay Company, with gold, silver and precious metal rights therein, unless and until such metal rights are otherwise disposed of in judicial proceedings.

Makes Life Sweeter

Next time a coated tongue, acid breath, or indigestion gives evidence of your stomach—try Phillips Milk of Magnesia! Get acquainted with this perfect antacid that helps the system keep sound and sweet. That every stomach needs it. Take it whenever a hearty meal brings any discomfort.

Phillips Milk of Magnesia has won medical endorsement. And convinced millions of men and women they didn't have "indigestion." Don't diet, and don't suffer; just remember Phillips. Pleasant to take, and always effective.

The name Phillips is important; it identifies the genuine product. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

Government of Canada for the purposes of Canada, but all rights of fisheries except such as are herein excepted shall belong to and be administered by the Province, which is to be responsible for the production and development of the fisheries transferred to it.

School Lands Fund
The clause relating to the school lands fund in the agreement signed was as follows:

"Upon the coming into force of this agreement, Canada will transfer to the Province the money or securities constituting so much of the school land fund, created under Section 22 of an Act to Amend and Consolidate the several Acts respecting Public Lands of the Dominion, being Chapter 21 of 42 Victoria and subsequent statutes so far as the said fund is derived from the disposition of any school land within the Province or within that part of the North-West Territories now included within the boundaries thereof."

On May 31st, 1926, Premier King moved that the House go into committee at the next sitting to consider the resolution to approve of the agreement, the following provisions to form part thereof:

(a) That the school lands fund to be transferred to the Province as in the said agreement provided and as in the school lands specified in section thirty-nine of The Dominion Lands Act, Chapter 20 of the Statutes of 1908 and amending statutes as passed to the administration of the Province shall be set aside and shall continue to be administered by the Province under the terms of the said agreement in accordance with "mutatis mutandis" with the provisions of sections thirty-one to forty-two of The Dominion Lands Act, for the support of schools organized and carried on therein in accordance with the provisions of Section seventeen of The Alberta Act, Chapter three of the Statutes of 1905 and

(b) That any interest in any lands included in the parks or forest reserves in the said agreement referred to, may, with the consent of the province be disposed of by Canada for any purpose other than the purposes specified in the said agreement and

(c) That nothing in the said agreement or in any subsequent agreements or statutes such as are therein provided for, shall in any way affect the rights or properties of the Hudson's Bay Company as contained in the conditions under which the Company surrendered Rupert's Land to the Government.

This resolution was adopted and the proposed changes submitted to the Alberta Legislature, which was then in Session.

Before the amended agreement was finally passed by the Alberta Legislature outside criticism was made implying doubts as to the validity of section 17 of the Alberta Act and asserting that passing the clause in the agreement as drafted and having same confirmed by the Imperial Parliament would validate the section for all time.

On the 22nd of May, 1926, the Provincial Legislature passed the Act approving of the agreement with the amendments sent up from Ottawa with a change as follows:

The Ottawa draft provided that the school lands funds should continue to be administered in accordance with the provisions of Section 17 of The Alberta Act, that is the Act forming the province. The Alberta Legislature changed the section to read that the school lands funds should continue to be administered in accordance with the law of the Province.

Section 17 of The Alberta Act is as follows:

17. Section 93 of The British North America Act 1867, shall apply to the said Province, with the substitution for paragraph 1 of the said Section 93 of the following paragraph:

(1) Nothing in any such law shall prejudicially affect any right or privilege with respect to the separate schools which any class of persons have at the date of the passing of this Act, under the terms of chapters 29 and 30 of the Ordinances of the North West Territories passed in the year 1891 or with respect to religious instruction in any public or separate school as provided for in the said Ordinances.

2. In the appropriation by the Legislature or distribution by the Government of the Province of any monies for the support of schools organized and carried on in accordance with the said chapter 29, or any Act passed in amendments thereof or in substitution therefor, there shall be no discrimination against school or any class described in the said Chapter 29.

3. There the expression "by law" is employed in paragraph 1 of the said section 93, it shall be held to mean the law as set out in the said chapters 29 and 30; and where the expression "at the union" is employed, in the said paragraph (1) it shall be held to mean the date at which this Act comes into force.

The agreement as altered by the Alberta Legislature was not adopted by the Federal House.

On May 31st, 1926, Premier King announced that it was not contemplated to proceed with the natural resources legislation and that the question of doubt as to the constitutionality of the school clause would be referred to the Supreme Court of Canada for decision.

The question referred was: In section 17 of The Alberta Act in whole or in part ultra vires of the Parliament of Canada, and if so in what particular or particulars?

The question was considered by the Supreme Court and on the 20th April 1927, judgment was given unanimously by deciding that the section was within the legislative competence of the Parliament of Canada, and if so in what particular or particulars?

In the meantime negotiations have been continued between the Province and the Dominion. The correspondence has not yet been tabled in the Legislature, but press reports state that a new offer has been made to the Province. It is suggested that the school lands clause, difficulty may be overcome by adding to the clause as amended by the Alberta Legislature the words "but in compliance with the letter and spirit of the constitution."

Under the 1926 agreement the Province was to receive the annual subsidy for three years only, but it was made plain that if at any future date the other western provinces were granted their resources on better terms than those which Alberta had accepted the Province would insist that it also should receive the benefit of such terms.

According to report, the Dominion now offers the subsidy in perpetuity as a final settlement without appeal or final protest no matter what settlements may be made with the other provinces.

Manitoba is now presenting her case at Ottawa, based upon an accounting for resources alienated while Saskatchewan claims are under preparation. It is reported that Saskatchewan is asking for an extension of boundaries to the North, in which event no doubt Alberta will make a similar request.

The prevalent impression seems to be that the Province will await the outcome of the negotiations with the other prairie provinces before making a final settlement of the much discussed question of control by each province of her natural resources.

"Its big car
Luxury
attracted
me"

NOT that its luxury is its chief Big-car attraction. Beauty and performance compete for that distinction. But such luxury as Pontiac Big Six provides is so unusual in any save the higher priced cars that Pontiac is becoming the favorite with lady drivers. And "luxury" means more than the inviting interior of Bodies by Fisher. It includes the effortless steering... the ease-dispelling mastery of highway and hill... the cushioning comfort of Lovejoy Shock Absorbers.

Experience its Big Six luxury, at the driver's seat... on the road. P-27-4-226

TRICKS OF AUTO
THIEVES COST CAR
OWNERS MILLIONS

He was proud of his automobile. It was one of the latest models and he had paid only about one-fifth the usual price for it. He enjoyed it for three days, then a policeman called "Mr. Sorry Mr. Blank" he said "that's a stolen car. We've found the owner."

This happened to a business man the other day says Popular Mechanics Magazine a man known for his shrewdness and for his absolute honesty. In an unguarded moment he had neglected to "look his gift car under the hood" if he had he might have discovered that the serial number had been altered. The digit 3 had been changed into an 8. But he had not suspected that anything was wrong and the bargain had been too good to overlook. So he lost the car and what he had paid for it.

Carelessness on the part of buyers of second-hand cars is the opinion of Lieut. John J. Farrell, head of Chicago's stolen-automobile section of the detective bureau is one of the chief reasons why automobile thieves prosper as they do. Some 200,000 cars are officially reported stolen each year. Possibly sixty per cent of them are recovered. But insurance companies have found that the average loss on a car "just taken for a joy ride" and then returned is about \$150. Con servative estimates place the yearly net loss through automobile thefts simply on cars reported at more than \$50,000,000. Add the estimated number of stolen cars not reported and the grand total doubtless is well in excess of \$100,000,000. And this is in a country where in a few years ago it was common to Lynch babies thieves!

"It is curious," said Lieutenant Farrell "but a man will cheerfully pay as much as \$1,500 or more for a used car if he thinks he is getting it at a bargain without satisfying himself whether it is stolen. But in the case of a building lot for instance—something that cannot be given away or lost—he will go to elaborate trouble to investigate the title, even if the land costs but a few hundred dollars. If the second-hand automobile buyer would be aware, thieves would find their business cut in half. They steal to sell and they can sell, because as in the case cited the buyer rarely makes a thorough investigation as to the title of his purchase."

"Of course the greatest vigilance will not detect every stolen car. But anyone can exercise a few simple precautions. Try to know something about the dealer. Find out how long he has had the car. Don't be too eager to purchase one that has just been driven in. Ask for the bill of sale the dealer received when he bought the car. If you doubt any of the numbers have them examined by an expert. Some of my men are so efficient in this that they can detect a forgery simply by running their fingers over the figures."

"Call your police department and ask if they have any report on the car. If you care to go to further pains ask the same of one of the automobile-theft bureaus. There are five big ones that cover the entire country. They have records of every car reported stolen by their clients."

"There is no such thing as a theft-proof car. If they want your automobile badly enough the thieves may break open your garage and truck it away or adopt the same method if it is on the street. Thieves sometimes have service trucks and pose as legitimate repair men. If they take your car and are detected they plead a mistake or say that they were ordered to get the car but confused it with another one of the same make and model that may or may not have been standing close by. If the steering wheel is not locked one crook may break open the door, get in, and steer while a confederate in another car be bind will push your car down the street into an alley and postage into a garage where it is dismantled or disguised for sale. This method is called "kissing them away" and it is worked almost every day. It pays to have a good locking system however. A lock that secures both the steering gear and the ignition is one of the most effective."

"A favorite scheme of the thieves is to operate in a party of four, two men and two women. They go to a fairly large-sized city, register at a good hotel and the next day the man appears at an automobile dealer's where the make of car in which they are interested is sold. The salesman shows them a late model and is doubly pleased when his customers agree to pay cash in full. They give their hotel as their address explaining that they do not wish to return to their New York homes for some time. Just after the bill of sale is made out, No. 2 of the duo who up to this time has let No. 1 do most of the talking goes into action. Say Jack! he exclaims "hadn't we better telephone the woman here and let them know we've bought the car and arrange to meet them somewhere? Good idea! No. 1 replies "May I use your telephone Mr. Salesman?" The request is naturally granted and as No. 2 takes his seat at the desk No. 1 steers the salesman to the rear of the store. No. 3 watches his chance and as he telephones stuffs a number of the company's bills of sale into his pocket. Then he joins the others and soon the men drive away with their car."

"But they do not go to the hotel. They already have chosen a garage somewhere for their headquarters, a private one for which they have the only keys and on which they have paid a month's rent. The new car is stored there and perhaps that night the enterprising crooks go out and steal a car as new as possible and of the same make and model as the one they purchased. Engine number plates and other parts are taken from their car and placed on the stolen one."

"Some thieves make a specialty of buying wrecked or burned cars as junk. They receive a bill of sale salvaging parts which they place on stolen cars and so disguise the finished automobile as a legitimate car for which they have the bill of sale. Occasionally thieves visit a railroad yard where a shipment of automobiles is being unloaded. They drop a battery and an emergency tank of gasoline in to one of them and drive it away. Sometimes the car is sold before the dealer realizes that it is missing from his lot, and he is naturally incredulous when the police tell him that the car has been stolen."

REFRESHING EATS
FOR THIS WEEK
(BY BETTY BARCLAY)

COFFEE MACARON PARFAIT
2 packages coffee junket
3 cups milk
1 cup macaron crumbs
1/2 pint cream
Prepare coffee junket with milk according to directions on package. Turn into freezer can; let stand until firm. Add macaron crumbs (12 small macarons will make one cup of crumbs) and cream, whipped until stiff. Pack in ice and salt and freeze.

SWEET CELERY OMELET
4 eggs
1 teaspoonful salt
Pinch white pepper
1/2 cupful finely sliced celery
1 tablespoonful honey
Beat the yolks until lemon-colored; add the salt, pepper and honey. Mix well and fold in the stiffly-beaten egg whites, add half the celery, and then turn into well-greased omelet pan. Cook slowly until browned on bottom, turn omelet pan over and brown other side. Turn out on a hot platter sprinkle over the remaining celery which has been browned in bacon fat, fold over and serve at once. Enough for two omelets.

SLICED LEMON PIE
1 1/2 lemons
2 eggs
1 1/2 cups sugar
1/4 cup water
1 tablespoon melted butter
1/4 teaspoonful salt
Grate the rind of one lemon. Peel white part from lemons and slice the pulp very thin, discarding seeds. Beat eggs until light, add sugar gradually, then grated rind water, butter, salt and lemon slices. Bake between two crusts. Put into hot oven (450 degrees).

After 10 minutes reduce heat to moderate (350 degrees) and continue baking 30 minutes longer.

ROAST FILLET OF BEEF
Have the fillet larded, ready for the oven. Season and place in an open pan. Have the oven very hot so that the meat will sear over at once. A four-pound fillet requires about forty minutes to roast. After roasting about twenty minutes place a little hot water. When done place on a platter and serve with brown gravy made from drippings in the pan. Mixed cut and cooked vegetables make an attractive garnish for this dish.

FROZEN PUNCH
1 1/2 cups water
2 cups sugar
1 small bunch mint
3 cups weak tea or ginger ale
1/2 cup lemon juice
2 cups orange juice
Boil sugar, water and mint together for five minutes. Chill, add remaining ingredients; strain and freeze.

SAUERKRAUT A LA RED STAR INN
Set sauerkraut on stove in kettle with enough water to cover. Put in a ham bone or a piece of ham or bacon, some lard and quite a few sliced onions, and let it cook about an hour. Add enough grated raw potatoes to thicken it a little. Some juniper berries and caraway seeds may be added while cooking it to enrich its flavor. When the hour is up put in the kraut and cook 20 to 30 minutes.

EGYPTIAN DELIGHT SALAD
Flake one can salmon, and mix with one cup diced celery. Mix thoroughly with boiled maldon dressing. Place between a chop plate so that they reach out to the edge of the plate. In the center heap the salmon mixture, pyramid fashion, press lightly into the sides one dozen stuffed olives, having the red on the outside. Arrange around the edge two or three tomatoes, sliced, with a ball of cottage cheese (mashed) with salad dressing in center of each. Between each slice of tomato place a small radish with its green stem upwards.

FRUIT OMELET
1 egg
Few gratings orange rind
1 teaspoon orange juice
Few grains salt
1 orange
2 teaspoons butter
2 teaspoons powdered sugar
Beat the egg slightly, adding the orange rind and juice and salt. Peel the orange, removing all white membrane, and cut into very thin slices. Sprinkle with one teaspoon of the powdered sugar. Melt the butter in not individual omelet pan or frying pan. Pour in the egg mixture and cook over a low heat, shaking the pan and pricking the mixture with a fork until all the mixture is cooked. Roll or fold and turn out on to serving dish. Sprinkle with remaining sugar and surround with slices of orange.

SIRLOIN STEAK JULIENNE
Cut sirloin steak that is about three quarters inch thick in three-inch squares. Roll in flour, brown both sides lightly in frying pan. Place browned squares in baking dish, sprinkle with salt and pepper lightly. Cover with tomato purée and for each piece of sirloin steak allow one teaspoonful of purée. After covering with tomato purée, add the honey. Then place a layer of onion and celery strips over the entire top, cover pan and bake slowly for two hours. Uncover, and bake for about fifteen minutes in good hot oven to properly brown steak. At least four or five strips each of onion and celery should be allowed for each serving.

FRUIT SALAD IN ORANGE CUPS
3 oranges
2 slices pineapple
12 marshmallows
1/8 cup nut meats
2/3 cup white grapes
Cut oranges in two; remove pulp carefully; then pull out all membrane, leaving orange cups. Cut pineapple, marshmallows and nuts in small pieces; skin and seed the grapes and mix all with orange pulp. Fill orange cups cover with cream mayonnaise and garnish with grapes and nuts. Serve on lettuce.

TOMATO RABBIT

2 tablespoons butter
2 tablespoons flour
2 cups strained tomato or tomato soup
1/4 teaspoon paprika
1 cup grated cheese
1 cup sauerkraut
Melt butter, add flour and when brown add tomato. Stir until mix

ture. This is a good late-supper dish. Boil, add seasonings. Put over hot water. A double boiler is excellent for making all rabbits for cheese needs a low temperature. Heat in the grated cheese and continue heating until cheese is thoroughly melted. Stir in the sauerkraut and when thoroughly heated pour over triangles of hot

How to Play
BRIDGESeries 1928-29 by
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr.

ARTICLE No. 16

Probably the great majority of players would say that the most enjoyable part of Auction is to play the combined hands of the declarer and the dummy. The declarer, as he is called, is the most important player of the four; he has the center of the stage and it is his play, rather than that of his opponents, that interests the bystanders.

The fact that the declarer plays the dummy hand as well as his own gives him a tremendous advantage over his opponents. He knows which twenty-six cards are against him, whereas each opponent has to guess as to which thirteen cards his partner and the declarer respectively hold. The declarer can throw the lead into an opponent's hand and know exactly how and when he can regain it. For all of these reasons, a mistake by the declarer is less excusable than one by either of his opponents.

To get all that is possible out of the twenty-six cards held by the dummy hand and his own is a fascinating problem for every declarer; and the proper means to obtain this wished-for result should be mastered by all players. In the first place, when the dummy hand is placed on the table, the declarer should take a reasonable amount of time to note the cards held in his own and in the dummy hand, and then plan his line of play. Primarily, the declarer should try to make sure of his contract, and if that contract isn't sufficient for game, he also should try to figure out a plan for game. This should be done as completely as possible before he plays to the first trick.

The following hand is a good example of the declarer figuring out the proper way to make his contract:
Hearts—Q, 8, 6, 4, 3
Clubs—A, K, 5
Diamonds—Q, 6, 2
Spades—7, 6
A Y B

Answer to Problem No. 18

Hearts—A, 6
Clubs—K, 7, 5
Diamonds—J, 8, 7, 5, 2
Spades—Q, 6, 3
A Y B
Hearts—3
Clubs—10, 9, 8
Diamonds—A, K, 10
Spades—A, 10, 2

No heart, after game. Z dealt, led one heart and all passed. If A opened the nine of spades, how should Z play the play of the hand?
Z should allow B to win the first spade trick so that if A has two spades, he cannot lead the second spade and thus be able to trump the third round. If Z wins the first spade trick and leads trumps, A will win the second or third heart trick, lead the five of spades and trump the third round. Played in this way A B can have game for they will make a one-diamond and two

Answer to Problem No. 19

Hearts—K, 8
Clubs—Q, 4
Diamonds—J, 2
Spades—A, 10, 9, 8, 7, 6, 5, 4, 3, 2
A Y B
Hearts—none
Clubs—5, 2
Diamonds—7, 3
Spades—J, 9

There are no trumps and Z is in the lead. How can Y Z win five of the six tricks against any defense?
Z should lead the five (not the deuce) of clubs which Y should win with the queen. B has two plays; first, to play the trick of clubs; second, to play the nine of clubs.

First: Suppose at trick one, B plays the trick of clubs. Y should now lead the four of clubs which B must win up to Y's hand. Y thus makes the king and eight of hearts. Z should discard the jack and nine of spades. A is forced to make one discard. He can discard either his queen of spades or the four of diamonds. If A discards the queen of spades, Y's deuce of spades will win the first spade trick, he is sure make a one-diamond and two

balance of the tricks. If A discards the four of diamonds, Z's seven and ten of diamonds will win the balance of the tricks.

Second: Suppose at trick one, B plays the nine of clubs. Y should now lead the four of clubs and A's best discard is the deuce of hearts. He cannot discard the queen of spades or he will lose all of the tricks. If he discards a diamond he will lose all but one trick, if he discards the king of hearts, Y should now lead the deuce of spades, forcing A to lead. A must now lead a diamond to Z who wins the trick and leads his good spade. Played in this way Y Z must win all but one of the six tricks.
